

I just had to write to you and thank you for helping to lower my blood pressure

I just had to write to you and thank you for helping to lower my blood pressure. You are aware that I have been battling hypertension since 1985. During the last half of 2002 my blood pressure was consistently in the range of 155/100 (even with medication). December you mentioned your BRT program, loaned me your information manual and after reading it we gave it a try.

I believe you were as surprised as I was that my blood pressure immediately began falling after only first treatment! This morning my blood pressure was 112/72. This is not a fluke! My pressure has been below 120/80 for the last 6 weeks with very little fluctuation.

I cannot thank you enough for accomplishing what others could not.

Bob F.
